

Animal Management

Electric Fencing Systems

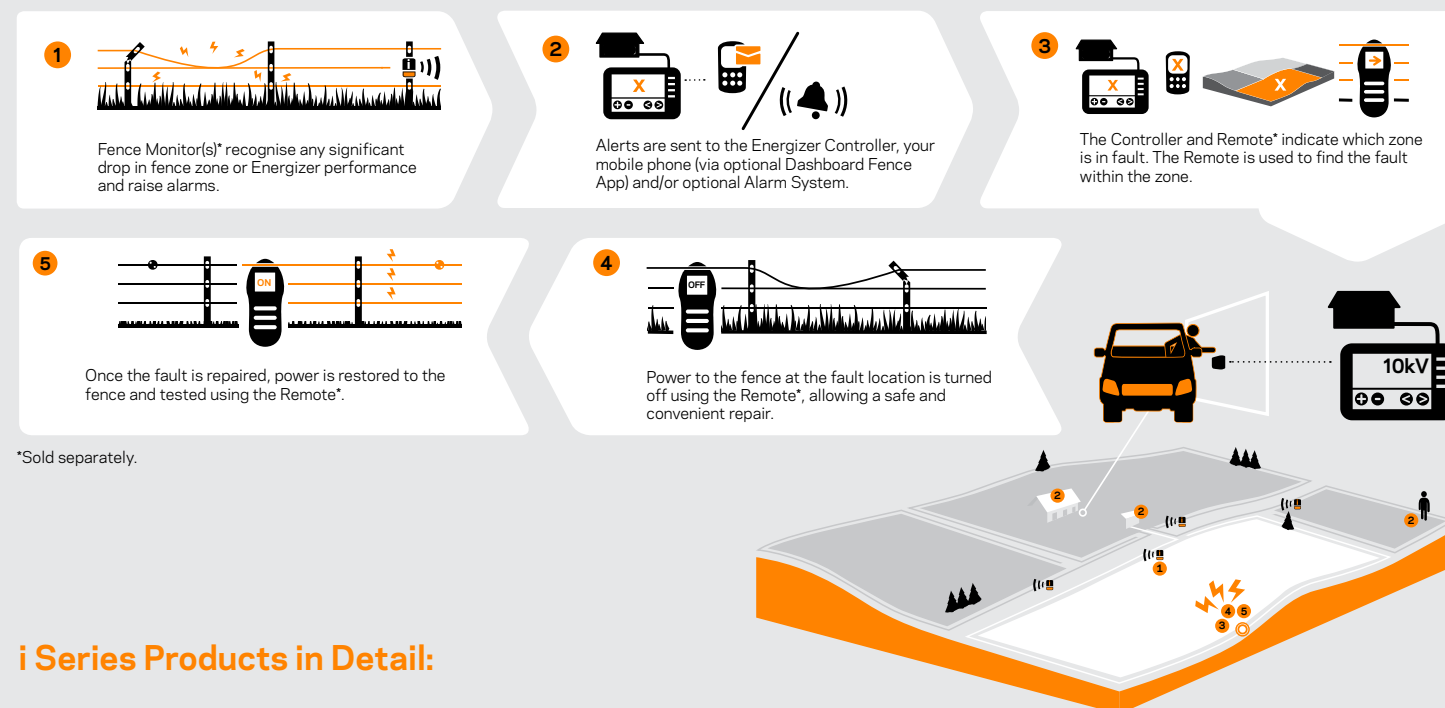

Weighing and Electronic Identification (EID) Systems

Water Flow Indicator

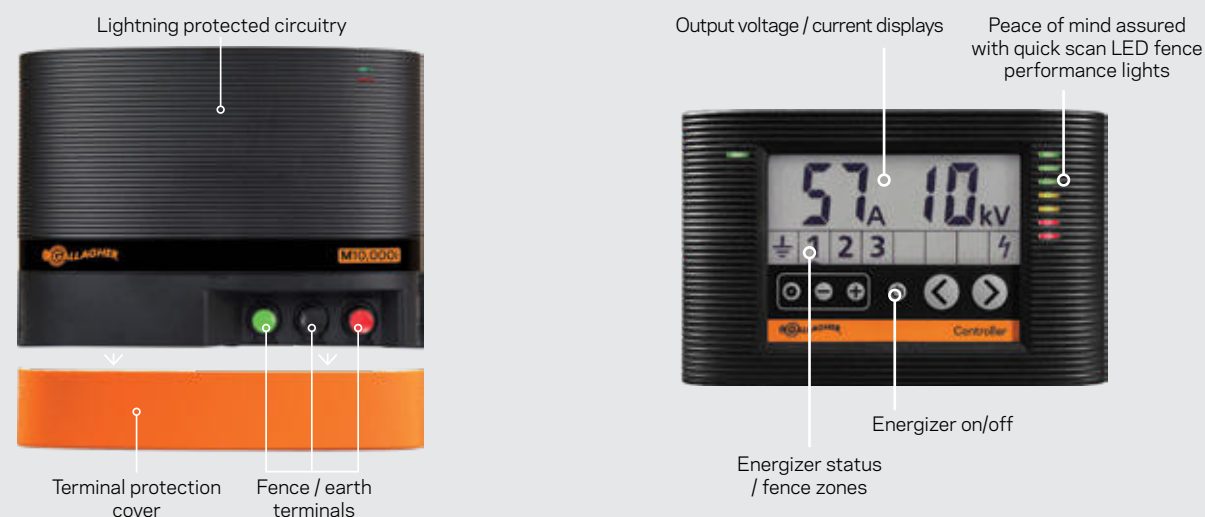

The intelligent i Series system - the fence that talks to you. Working together the i Series system provides fence information at a glance and if it detects any faults, it leads you directly to them, saving you hours of searching.

i Series in Action:

i Series Products in Detail:

Easily monitor and control fence performance

Energizer

M10,000i, M5800i, MBS2800i, MBS1800i and MBS1000i

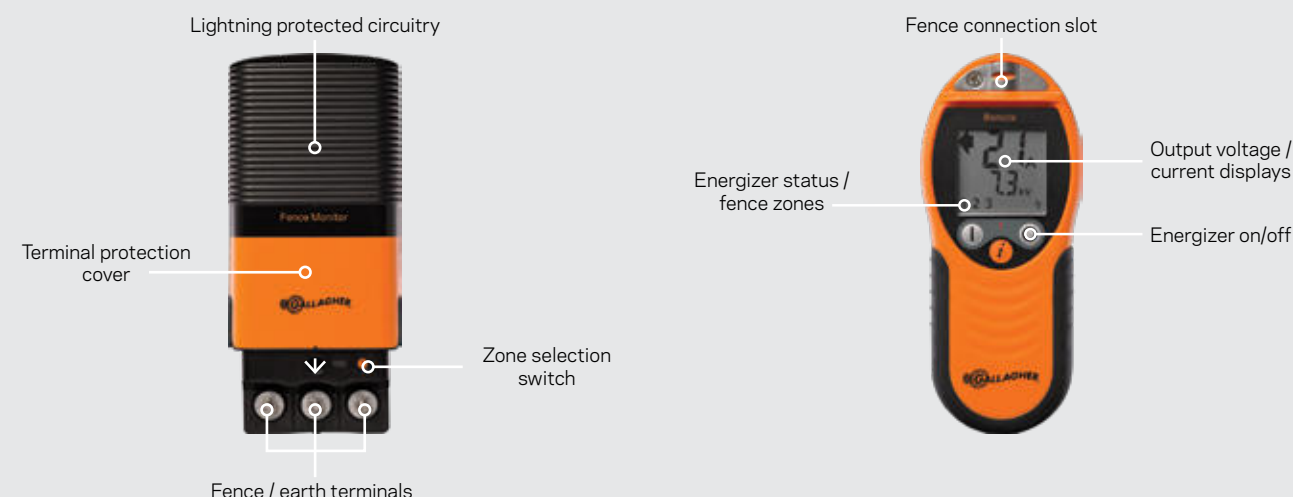

- Reliable, adaptive Energizers that provide high performance livestock control when it matters
- Consistent fence performance ensured regardless of extreme temperature conditions or unreliable power supply
- MB2800i, MB1800i and MB1000i can be powered by Mains, Battery or Solar.

Energizer Controller

- Mount Controller in a convenient location up to 50m* from Energizer for easy access to information
- Fully waterproof enabling outdoor mounting
- View fence and zone performance at a glance
- Turn Energizer ON/OFF from Controller.

*Three metre cable provided. Extend up to 50m with additional RJ12 cable.

Quickly and easily locate and repair faults

Fence Monitor* G51000

- Install up to six Fence Monitors on your fence to create monitored fence zones on your farm
- Monitors fence zones and alerts you of any significant drop in performance, saving time to locate faults on your farm.

Energizer Remote & Fault Finder* G50700

- Accurately measures fence voltage and current simultaneously
- Indicates which zone is in alarm and assists to find any fault(s) on the fence quickly and easily within that zone
- Once fault is located, turn the Energizer ON/OFF remotely to allow a safe and convenient fence repair.

Secure your farm assets

Alarm System* G57900

- Ideal to use as a security alarm where valuable farm equipment is located
- Enables a section of fence to be monitored, triggering an alarm siren and/or strobe light when the circuit is broken (e.g when an electric gate is opened).

*Sold separately

Fence performance in your pocket

WiFi Gateway* G56700

- Shows you your fence voltage, current readings, and sends you alarm notifications when things go astray.
- Simply connect our new i Series WiFi Gateway box to your existing Gallagher i Series Energizer, install the App and subscribe to our new service to bring your fence to life.
