## HeXa Disc Plough

Hexa disc ploughs is designed to work in all types of soil for Soil breaking, soil raising, soil turning and soil mixing. It cultivates the soil and prepares seed bed which will control the weeds and diseases. It can also premix fertilizer and herbicide by stubbing the soil and decrease the wind and water erosion and leaving the rainwater on the field.

Hexa disc plough main frame is made of heavy duty hexagonal square frame, which has high trash clearance allowing the plough to operate despite extreme heavy crop residue. These disc ploughs are manufactured as 2 Bottom, 3 Bottom, 4 Bottom, 5 Bottom discs available in three different size of Disc diameter x thickness – 26 Inch / 28 Inch / 30 Inch x 5 / 6 mm Thickness. The discs are made with 50-52 rh hardness corrosion-proof steel and resistance to cracking. The discs can be adjusted according to the soil conditions by means of position and direction angle.

Model	Nos. of Disc	Diameter of Disc	Thickness of Disc	Working Depth	Working Width	Disc Spacing	Dimension W X L X H	Weight
	Nos.	MM	MM	MM	MM	MM	MM	Kg
DH04	4	26" - 30"	5/6	150 - 300	250	540	1420 X 2520 X 1300	730
