VIRDI
AGRO TECHNOLOGY

ABOUT US

Virdi Agro Technology is one of the leading agro and industrial machinery manufacturers in India. Since its inception in 1979 at Patran (Punjab) by its founder Sarwan Singh Virdi & his son Gobind Singh Virdi, the company has set new milestones by introducing innovative agro machinery to make tough farming more easy and productive in all weather conditions. An ISO 9001:2015 certified company, Virdi Agro Technology has its own modernized manufacturing Plant with high tech machinery like CNC Press Brake, CNC Balancing machine CNC marking machine, CNC Plasma and Power Coating Plant machinery for Superior quality. The company has the skilled and dedicated workforce to cater to the national and international markets. The Company's Managing Director Tejinder Singh Virdi has a mission to provide more viable and high quality agro and industrial machinery with economical pricing.

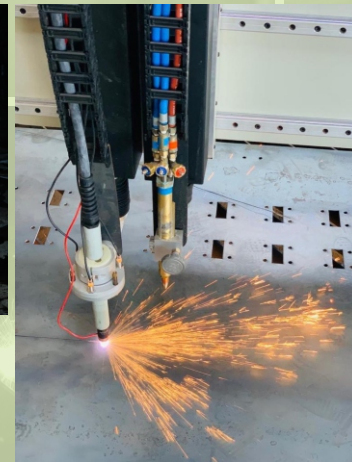

INFRA OUR INFRASTRUCTURE TURE

1

The use of the latest machinery and the best grade raw materials ensures the production of a quality range of products.

2

While efforts behind some segments of product development research are kept secret for competitive purposes, others warrant a different approach: sharing.

TECHNICAL PARAMETERS

No. Of Rows	Available in 11 / 13 Rows
Overall Width	2745 / 3045 mm
Overall Height	1525 mm
Overall Length	1530 mm
Weight	950 / 1050 kgs
Working Width	1536 / 1816 mm
Seed Hopper Capacity	100 / 120 kgs
Seed Dropping	Fluted Rollers
Fertilizer Metering	Fluted Rollers
Sowing Width	1550 / 1805 mm
No. Of Tines	12 / 14
No. Of Disc	12 / 14
Row-row Spacing	5.5" (140 mm & Adjustable)
Tractor Hp Required	Tractor of Above 65 Hp
Drive	Tractor Driven
Tractor Attachment	3 Point Linkage
Press Roller	Provided

DESCRIPTION

Viridi Grass Seeder (DTC Series Seed DSrill) is one of the most popular seed drills, specifically aimed at making even lighter work of reseeding or renovating existing pastures, and cultivated soils.

TECHNICAL PARAMETERS

No. of Rows	Available in 4/5 Rows
Type	Corn / Multicrop
Power Source	Tractor Operated
Row- Row Space	30" (762mm)
Seed Dropping	Rotating Cells. Inclined Plate
Fertilizer Metering	Fluted Rollers
Seed Dropping System	Disc Type
Sowing Depth	2"-3" (50mm-75mm)
Suitable Crops	Mainly Corn
Drive	Ground Wheel
Retrofitted	Tractor of Above 35HP
Hitching System	3 Point Linkage CAT-III
Marking	Disc Type Automatic Hydraulic
Width of Operations	2286/3048 mm
Disc	Coulter Disc in Front of Main Disc
Press Wheel	Yes, Independent Press wheel on Each Row
Press Wheel Type	Spring Mounted
Weight	750/835 kgs
Length	1270mm
Width	2786mm
Height	1420mm

DESCRIPTION

VIRDI NO TILL CORN SEEDER is a great all-round planter for Corn and Multi-crops. It can be applied to a variety of soil conditions. It is an excellent planter to plant into established pastures or can also be set-up for conventional planting methods in prepared fields by reducing the down force. The mechanical no-till corn planter equipped with inclined plate seed metering device to ensure sowing precision and efficient. It comes with independent disc setup and with coulter disc on each seed/fertilizer disc.
